

SAFETY IS Y OUR RIGHT, QUALITY OUR GUARANTEE

ART. N199/RX

MADE IN ITALY

TECHNICAL LAYOUT

- Special forks to lift the vehicle from under the wheels and allow free access to the underbody.
- Mandatory to remove the battery group from below.
- The set is compliant with Art. 199RX and 199WRX only and can be mounted even on lifts already installed in a workshop.
- Easy to install: just take the pads off and put the forks instead.
- Use it when you need it: no need to buy a new lift just for that use!
- The forks have rolls with bearings inside so that the wheel can roll freely.
