WE LIFT YOUR PROFIT

SAFETY IS YOUR RIGHT, QUALITY IS OUR GUARANTEE

MADE IN ITALY

ART. 199/RV *All-in-One*

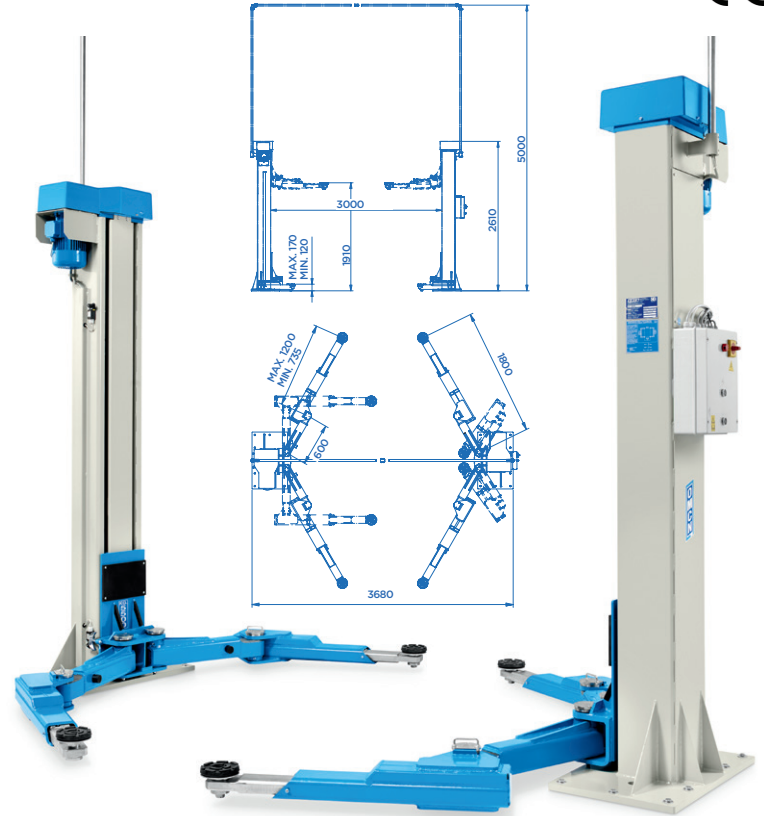

TECHNICAL AND STRUCTURAL LAY-OUT

- Multiple joint arms to lift from the Smart to the long wheelbase truck.
- The universal solution for the whole of today's fleet.
- 3 metres clearance between columns.
- Monobloc column structure for maximum sturdiness.
- Self-cooling motors with protection to avoid overheating.
- Management of levelling between the two carriages by electronic card with maintenance-free built-in fault autocheck.
- Carriage sliding on 6 steel wheels for maximum stability in all load conditions.

199/RV | 6000 Kg | 3,5+3,5 KW | 400V • 50HZ | 1530

Motor power

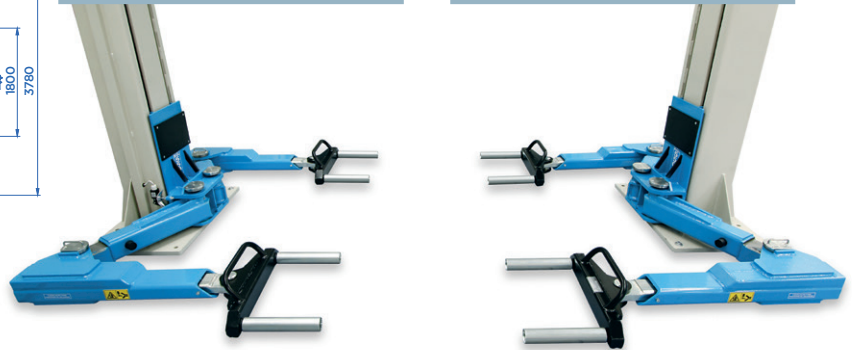

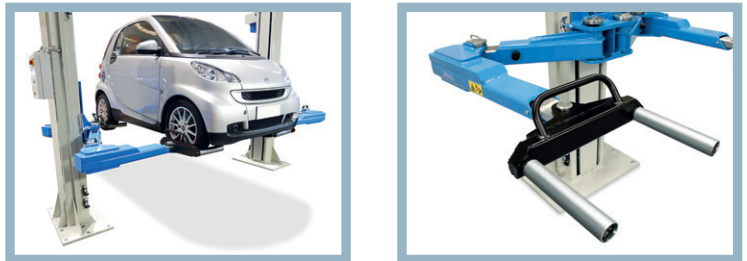

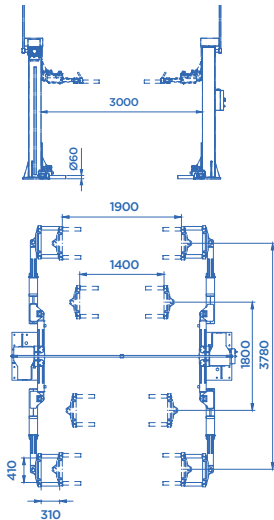

EXTRA EQUIPMENT

ART. N199/RX

TECHNICAL AND STRUCTURAL LAY-OUT

- Special forks to lift the vehicle from under the wheels and allow free access to the underbody.
- Mandatory to remove the battery group from below.
- Easy to install: just take the pads off and put the forks instead.
- Use it when you need it: no need to buy a new lift just for that use.
- The forks have rolls with bearings inside so that the wheel can roll freely.
